J. B. HAGGIN'S FAST FILLIES. BOTH FIRENZI AND AURELIA WIN. MR. BELMONT SADLY DISAPPOINTED-RACING AT

JEROME PARK.

The Haggin stable has not been in a hurry to show its strength this year, but the race-going public is now getting some idea of the trumps it holds. In Firenzi and Aurelia it has a pair that will take many micks, a pair of fillies that no other stable in America can parallel or approach. Pirenzi wen the fourth uce at Jerome Park yesterday in a common canter. shough she was giving away crushing loads of weight. If she starts in the Suburban next week she will keep the winner moving at a smart pace. Aurelia, with 110 pounds, had a much harder task in the Croton Handleap, but she had won the City Handilast week with such case carrying 112 pounds that she was backed with much confide the stable and by a darge percentage of the general speculators present. She was ridden with unsparing energy and uncommon skill by Garrison, who got her to the front by the free use of the whip in the home stretch and kept her there, Climax coming with a at the end and scratching second place from Lady Primrose, who was ridden by Godfrey, with his usual high-bred, aristocratic, English air of entire unlockey's thoughts seem to be far away. Perhaps he is thinking of some blue-blooded connections in the Court of St. James's or the Winter Palace at St. Petersburg. It is certain anyway that his riding is

mything but alert, energetic and businesslike. It is understood that Mr. Belmont, who is a generous employer and a lavish patron of the turf, is paying rey a handsome salary. Perhaps he is satisfied and believes that he is getting the worth of his money, the unprejudiced observer it appears that he will find Godfrey as costly an investment as Mr. Haggin found John Spellman two years ago. spellman and Godfrey have been much alike in their sthods. Each has delighted in waiting with a horse that should set the pace, in moving up under a gentle pull in the homestretch, in making one ridicuif that failed, in going quietly to sleep. cost Mr. Haggin a great many thousand dollars to stakes and purses which he might have won easily. Godfrey has already cost Mr. Belmont the Withers Stakes and some other races and is in a fair way to cost him many more.

Lady Primrose is a wonderfully fast filly with light weight, but faint-hearted and easily discouraged. All her best running has always been done by go ing out in front at a hot pace and staying there long as she could. In that way she spread-eagled the field in the first heat in fast time in the Long Island Stakes at Sheepshead Bay last autumn. But erday some brilliant genius thought it best to hold her back and trust the result to a drive Aurelia in the homestretch. Aurelia carried 119 pounds to Lady Primrose's 107. If Lady Primrose had gone off at high speed and kept 1 the finish the heavy weight would have stopped, Aurelia and Mr. Belmont's filly would have won.

Belmont was present to see the massacre of his filly's chances. So were J. B. Haggin, B. A. Haggin, D. D. Withers, Leonard W. Jerome, Major Doswell, President Hunter and the other officials of the American Jockey Club, and some thousands of enthusiastic levers of the turf. Mr. Belmont went away soon after the butchery of Lady Primrose. His thoughts could not have been altogether pleasant. His two-year-old Carnot was the favorite in the first race, but was beaten by the Castle Stable's Diablo, a small son of Eolus and Grace Darling, who was sold for only \$230 last year and has already won more than six times that nt and will win more, as he is a steady rater Laredo second. and moves like a stayer.

The mournful news reached the course that The second. Bard was again sick with the disease (inflammation last year. The noble horse is at Sheepshead Eay. Invermore filly may get second place. It is to be hoped that his condition is not so serie as reported. If the attack is as grave as that of last August he can hardly survive it, for second attacks of this sort are generally fatal, and last year he was at the point of death for days. It is indeed sad if this splendid racehorse, one of the best of recent years,

this splendid racchorse, one of the best of recent years, has run his last race. But if he dies now he dies in the flush of victory and full of honors. Many small-minded and small-witted people have striven malignantly to obscure his true merits. They have failed, and every turiman in America now concedes his worth as a great racchorse.

The two selling races and the steeplechase were well contested. If Marsh Redon's brilde had not slipped Little Minnie would hardly have won the second race. Brait won the fifth race in such style that the bidding on him was lively. He was entered at \$1 200 and Lakeland, who got second place with Ernest, bought him for \$2.800.

In the steeplechase Harry Mann came home first, Will Davis second. Justin Mack, Wellington and The Colonel went outside the flags.

Marsh Reion was lucky enough to be in the lead when the flag was given in the chute by Pienle Hill. Little Minnie, however, was for once quickest on her feet and in the run past to club house she got in front and showed the way around its blus. Old Marsh Redon had resumed the lead when they componed at the half and he was first into the homester! running well within himself and appar-ently having command of the field. Seeing this, Stone sank down in the saddle and took an afternoon slesta. Coming down the stretch the sleeping beauty refused to be disturbed by Little Minnie's sudden rush for the line. She passed on andwon the race by a head from Coldstream, who crept noiselessly by the dreamer. Then there was an awakening, but he mischief had been done and another "good thing" had sone to smash. Marsh Redon was a leng time returning to the scales, and when he came back he limped and the madstall of his bridle was behind his ears. There was no sid for the winner.

NEW-YORK REPUBLICANS WAITING.

MR. MAGEE REPORTS IN PITTSBURG THE RE

SULT OF HIS INQUIRIES IN THIS CITY. Pittsburg, June 5 (Special).-" Chris" L. Magee turned this morning from New-York, where he has been for several days, consulting with the leaders of the Republican party regarding the selection of a

candidate for the Presidency.
"It is an absolute impossibility," said he, "at this early stage to predict the action of the Chicago Concention. Sherman is the strongest man to present, and he will go into the convention with the largest number of votes at his back; but, for all that, his nominaion is by no means assured. There are so many good men before the party, however, that it will be impossible for it to make a bad choice. Exsenator Thomas C. Platt has not declared for any one. He is feeling the pulse of the people, and, I do not believe, has yet determined for whom he will make a stand.³

WORKINGMEN AND PROTECTION. A large and enthusiastic meeting of the Working-men's Protective League was held in the XIIth Assembly District last night under the auspices of the Central League. Among the speakers were Dr. John Creighton, chairman of the Executive Committee; Thomas J. Sullivan and William J. McElroy. Dr. Creighton said that it behooved every workingman to stand by the candidates who favored protection to American industries, adding: "I am for protection because it surrounds the laboring man with conditions which secure to him employment at a rate of wages which enables him to pay the taxes imposed on the articles he consumes and then having more left than he could possibly have on any other plan." Mr. Mc. Elroy said: "I am for protection because it is the only way in which we can develop our own resources as a Nation, and employ our own muscle, our own

as a Nation, and employ our own muscle, our ewn machinery, our own brains and our own capital, and in which these forces can work together in the most successful manner to prosecute the advancement of our own country."

The committee expect to hold another meeting next Wednesday evening in the XVIIIth Assembly District and one in each of the Assembly Districts weekly from now until election day.

"THE TRIBUNE" TEAM AREAD.

Nearly 3,000 people saw the game of baseball at the Polo Grounds yesterday, between the New-York and Indianapolis clubs. Fortune favored the Glants and they won. The Indianapolis players were the first to score, making one run in the foorth inning. Denny went from home to third on an error by Slattery and scored on a hit past Connor by Bassett. A series of comical errors enabled the home players to score two runs in the seventh inning. An error by Bassett allowed Slattery to get to first and a wild throw by Buckley sent him to second, and Foster's out at first sent him to third. Richardson sent a bounder to Bassett, but that player threw poorly to the home plate and Slattery scored. Hatfield's out sent Rich-He went to third on a hit by Keefe and scored on an error by Buckley. The score was as

GOING SUDDENLY TO EUROPE.

A DEMOCRATIC POLITICIAN DEPARTS.

THE HOBOREN COMMON COUNCIL LOSES ITS PRESI-DENT.

William J. Winges, president of the Hoboken Commo Council, sailed for Europe last Thursday on the steamer Hammenia of the Hamburg line. Mr. Winges ha been a prominent and popular Democratic politician for a number of years in that city and at present is a member of the Board of Water Commissioners as well as president of the Council. He is one of the best known men in Hudson County and his numero friends would have given him an enthusiastic "send off" had they known the exact time of his departure. It was understood among his friends that he was about to take a trip to Germany for his health, but the most intimate of them, and even his wife, did not know when he was to sail.

The explanation of this secreey comes now in the well-authenticated rumor that Winges has eloped with a widow and abandoned his wife. The widow is Mrs. Eva Maler, who is neither young, fair nor prepo and who kept a beer shop at No. 10 Garden-st., Hoboken. The passenger list of the Hammonia cor tains the name of "William J. Winges and wife." Mrs. Winges is not with her husband was made evident yesterday afternoon to a Tribune reporter who called at the house and found her busily engaged in doing the family washing. The house is No. 25 Garden-st., and is owned by Winges. Mrs. Winges knew that her husband had gone to Europe for his health and that was about all she did know of his On learning that the passenger list contained th

entry "William J. Winges and wife," Mrs. Winges burst tears and referred the reporter to the widow Maler's beer shop across the way. There the reporter was informed by the barkeeper in charge that Mrs. Maler had sailed for Eprope on the Hammonia and was not expected back for two months. The passenger list of the Hammonia does not contain the name of Mrs. Maler and as there is a woman with Winges, it seems enably certain that it is the widow. Winges's intimate friends said that Mrs. Maier had gone with him in the capacity of nurse as he was suffering

with him in the capacity of nurse as he was suffering severely from rheumatism. Winges was in comfortable circumstances and received a liberal salary as collector for Jacob Ruppert's brewery. His accounts with the brewery are said to be straight.

The Common Council met yesterday and discussed the absence of the president. No allusion was made to the alleged elopement, but as Winges had not asked for or received a leave of absence it was resolved that he be cited to show cause on June 12 why the office of president should not be declared vacant. The notice will be served at his house and as he will not be able to respond, a successor will be placed in the chair. His office of Water Commissioner will also be declared vacant.

SCENES OF GAYETY AT WEST POINT.

PREPARING THE YOUNG GODS OF WAR TO BE

THE NATION'S SOLDIERS.
West Point, N. Y., June 5 (Special).—The usual premonitions of Commencement Day are at hand. The Military Post is assuming its most military look; visitors are streaming in from every boat and train, most of them interested in the creation of a new officer in an army world-famous for the possession of almost as many officers as men. A stately Board of Visitors, composed of great men from various parts of the country, have come up, and are ceremoniously attending the examinations and looking grand and wise. Military men are coming in from their various posts of duty to revisit scenes of memory both pleas-ant and painful. Magnificent drills are taking place daily in which the cadets appear at their best and afford profound satisfaction to themselves, their friends and the visiting crowds. These occurences always precede an annual commencement and mark the ushering in of a new batch of second lieu-

The visiting board is composed of distinguished civillans, selected to represent the National Executive and both Houses of Congress. It is composed this year of John M. Adams, of Maine, Dr. A. J. Battle, of Georgia; Edward A. O'Neal of Alabama; Peter White, Professor W. D. F. Lummis, of Iowa; General H. W. Slocum, and Henry Flanders, of Pennsylvania, all of whom were appointed by the President; the presiding officer of the Senato selected Senators Hoar and Reagan to represent that body in the board and Speaker Carlisle chose R. W. Townshend, of Illinois, Henry Bacon, of this State, and A. P. Fitch, as representatives con, of this State, and A. P. Fitch, as representatives of the House. All of the men, honored with the duty of visiting the Academy, are now on the ground most of them accompanied by their wives and families. They have not a great deal to do just yet. Beyond visiting the examination rooms, where the cadets are being subjected to an intellectual harrowing, distinguished among processes of that kind for its thoroughness, and watching the afternoon exercises on the campus, their time is free. It is expected that Secretary Endicett will appear on Thursday, and will remain at least until the great hop has taken place on Friday night.

BAR HARBOR TO WASHINGTON DIRECT.

Boston, June 5 .- The New-York and New-England Railroad Company will announce to-morrow that arrangements are now completed for the establishment of a through Pullman sleeping car line between Ear Harbor and Philadelphia, Baltimore and Washington via the Maine Central to Portland, the Portland and Rochester to Rochester, N. H., the Boston and Maine to Worcester, the New-York and New-England to Hartford, the New-York, New-Haven and Hartford to the Harlem River, the transfer steamer Maryland to Jersey City and the Pennsylvania Railroad. The cars will leave Bar Harbor at 7:20 a. m. and reach Philadelphia the following morning at 7 o'clock, Baltimore at 10 and Washington at 11. The north-bound train will leave Washington at 2 p. m., Baltimore at 3:10 and Philadelphia at 6:35, and be due at Far Harbor at 6 p. m. the following afternoon.

A LARGE AND SUCCESSFUL EXHIBITION. From comparisons published by "The Glasgow Evening News" of May 25, it would seem that unusual success is attending the International Exhibition. The average daily attendance so for has been 12,000 more than at the Indian and Colonial Exhibition held in London last year. The present exhibition is said to be the most extensive and attractive held in Great Britain since that of 1802 in Lon-

THE PENNSYLVANIA THRIVING.

PROFITS-DIRECTORS RE-RLECTED.

Pittsburg, June 5 (Special).-The annual meeting of the Pennsylvania Company was held in this city to-day, Thomas D. Messier acting as chairman. The at Sixth-ave, and Twenty-third-st., yesterday, was annual report for 1887 was read by the secretary. It covers 2,791 miles of railroad. The results ac cruing to the Pennsylvania Company's proprietary partment were as follows: Total revenue for 1887. on the principal lines operated were as follows: A profit in operating the Pittsburg, Fort Wayne and Chicago of \$576,057 73 in 1887, being a gain, as compared with 1886, of \$535,140 19; in the case of the Newcastle and Beaver Valley, a profit of \$24,707 06 for 1887, being an increase over 1886 of \$5,289 96; was \$287,306 25, while in 1886 the loss on this road was \$225,794 39; the result for 1887 on the Cleveland and Pittsburg was a loss of \$27, 247 76, against a loss Collyer, Grand Chaplain. This was followed by of \$32,377 97 in 1886; in the case of the Indianapolis Overture to William Tell and Hallelujah Chorus and Vincennes, the loss for 1887 was \$245,300 04, for

Taking the system as a whole, the increase traffic was large, 3,551,040 more tons of freight being though it was not ended until nearly 6 o'clock, it carried than in 1886, while the increase in the number of passengers moved was 983,107. Extensive renews and repairs were made to the roadbed, bridges and stations, and the condition of the motive power was more than maintained, while large expenditures were made in the purchase and improvement of real estate at terminal points. The amount expended for construction, equipment and real estate upon lines west of Pittsburg for the year, including sums advanced for the construction of new branches and auxiliary lines, was \$2.806,16298. The old board of directors were re-elected as follows: G. B. Roberts, Henry H. Houston, Wistar Morris, Edmund Smith, Henry D. Weish, J. N. Dubarry, John Price Wetherill, John P. Green and William H. Barnes, of Philadelphia; J. N. McCullough, William Thaw, Thomas D. Messier and James McCrea, of Pittsburg, A board meeting for organization will be held at an early day. THE NEW READING LOAN A SUCCESS. EVEN BEFORE THE BOOKS ARE OPENED THE APPLI-

CATIONS EXCEED THE AMOUNT OFFERED. The expected announcement in regard to the ne-Reading loan was made yesterday. The syndicate affered for public subscription the \$24,686,000 new 4 per cent bonds at 87 1-2, the purchase money to be paid 10 per cent on subscription, 10 per cent on allotment, and 67 1-2 per cent on June 25. Subscriptions will be opened at 10 a. m. to-day, and closed on Monday or before, on notification from London. The bonds will be delivered as soon as practicable after the date of payment.

Although subscriptions were not formally opened vesterday, it was evident that the low price at which the bonds were offered made the loan an almost instant success, and the receipt of applications before the close of business exceeded the amount offered Further subscriptions will be taken only subject to allotment from London. The announcement of the price excited some surprise in Wall Street, and at the Stock Exchange operators for a decline made considerable capital out of it. The bear argument was that the company must have realized much less than had been generally understood from the sale to the syndicate. In reply to this criticism J. Pierpont Morgan said:

"Mr. Corbin made two stipulations with the syndicate: First, that the entire sum necessary for the re-tirement of the general mortgage bonds before July 1 should be guaranteed by the syndicate, and secondly that the new bonds should be offered at once at a price which would make them attractive to the bond price which would make them attractive to the bond and stock holders of the company. If I had had my way," he said with a grim smile, "I should have kept the bonds awhile, and they could have been soid above 90 without difficulty. Mr. Corbin's agreement with the syndicate was explicit, except that the price was not named. It was finally agreed by the members of the syndicate to fix the price at 87 1-2, at which the subscribers are sure of a handsome profit." It was reported in Wall Street that some of the American members of the syndicate were not pleased that they were obliged to float the loan at the usual bankers' commission, but the success which is already assured may help to relieve this disappointment.

PUSHING A NEW WESTERN ROAD. At the annual meeting of the Billings, Clark's Fork and Cooke City Railroad Company vesterday, Charles P. Roberts, Milton Sayles, Henry Kelly, George Sims and P. M. Gallaher were elected directors, and the organization was completed afterward by the election of Charles F. Roberts, president; George V. Sims, vice-president, and Theodore Franklin, secretary. dispatch received from the company's attorney Washington stated that President Cleveland had just signed the bill giving the company the right of way across the Crow Indian reservation. Active construction of the road from Billings to Cooke City, a distance of 125 miles, will be begun at once, and it is expected that the whole line will be finished by July, 1889. The road will open the large coal fields on Bear Creek by October of this year.

RATE-CUTTING ROADS MORE CAUTIOUS.

There will not be a conference of the trunk lines on the dressed beef question this week, as has been rumored. The situation remains the same and the Vanderbilt lines are reluctant to force an issue on the cutting which is going on. The west-bound situation shows some improvement, the practices of under-billing, payment of excessive drayage and lighterage, etc., while not altogether abandoned, being restrained within narrower limits. The recent agitation of this subject in "The Tidbune" is admitted by railroad men to have had a benificial effect, in causing more caution on the part of offending roads, and simulating the efforts of Commissioner Fink to bring them to task.

ARRANGING A RECEIVERSHIP.

After a long conference between the directors of th Missouri, Kansas and Texas Railroad Company and the Adams committee of the general mortgage bondterests that the Mercantile Trust Company, as trustee. should at once begin proceedings for the reorganiza-tion of the company. It is understood that applica-tion for the appointment of a receiver will be made within ten days before Judge Brewer at Leavenworth, Kan. R. S. Hays, formerly connected with the Missouri Pacific, will probably be appointed, but as the company is a Kansas corporation and the court has held that local interests ought always to be respected, it is probable that a citizen of Kansas will be made

GENERAL GREELY'S GIFT TO KANE LODGE. When Lieutenant, now General, Greely was at Fork Conger, Grinnell Land, in 1882, he passed some of the weary hours in making a Masonic flag. This flag was afterward carried by Lieutenant J. B. Lockwood and Sergeant D. L. Brainard to a point believed to have been the nearest to the North Pole ever reached. The fing is known as the "Greely Arctic Masonic Flag," and General Greely last night presented it to Kane Lodge, No. 454, of which he is an honorary member. The presentation ceremonies took place in the Commandery Room of the Masonic Temple, and many members of the fraternity besides those belonging to Kane Lodge were present.

A SCHOOL CHAPEL DEDICATED.

MANY CLERGYMEN ASSEMBLE AT ST. PAUL'S, IN

CONCORD.

Concord, N. H., June 5 (Special).—The new chapel at St. Pani's School was consecrated to-day. At 11 o'clock, the clergy and choir assembled in the old chapel and marched to the new. The consecration was by Bishop Niles, of New-Hampshire; instrument of donation, the Rev. W. Stanley Emery; sentence of consecration, the Rev. J. H. Cott; morning prayer, the Rev. Prescott Evarts; first lesson, the Rev. Henry Ferguson; second lesson, the Rev. George W. Fay; hely communion, celebrant, the Bishop of New-Hampshire; the Epistles, the Rev. Alexander Mackay-Smith, Archdeacon of New-York; preacher, Bishop Potter, of New-York; server, the Rev. E. M. Parker. Fortyfour clergymen were present, ten being alumni of the school. The style of architecture is late decorated Gothic. The general arrangement is like that of the great school and college chapels of England. The plan consists of a chancel, choir, antechapel, organi chamber and vestries. The entire length inside measures 150 feet. The exterior is built of pressed brick and Springfield sandstone in about equal quanti-

ties. The window mullions and tracery are of stone.

The tower at present is only carried up clear of the roof and temporarily covered in. When completed, is will rise above the ridge sixty feet. The principal entrance is at the west end, and has a panelled interior oak perch which opens into the antechapel vestibule. This chapel is separated from the choir by a carved open oak screen and gates. Over the screen is a gallery capable of accommodating fifty prsons. As the west end of the chapel stands the font, which is of pink Knoxville marble, octagonal in form. The sides of the bowl and pedestal are enriched with sunkens traceried panels. The front stands upon a North River bluestone platform, and has a carved oak pyramidal-shaped cover, six feet in height. The cover is suspended from an ornamental wrought-iron crane. The choir is seventy-eight feet long by thirty-one feet The choir is seventy-eight feet to height. The chancel is thirty-five feet long by twenty-five feet and is forty-nine feet high from the choir floor. The alter is of pink Enoxylle marble and consists of a slab nine feet by two feet ten inches. The windows, with the exception of the Fame memorial window, are filled with deficately-tinted cathedral glass.
